# Introduction

This is the fourth Data*News* Annual NVQ Statistics Supplement to be published.

It contains a comprehensive listing of all NVQs that have been accredited, and the number of certificates awarded to date for each NVQ, up to 30 September 1999.

The listing is set out by NVQ framework area, as follows:

- 1 **Tending animals, plants and land**
- 2 **Extracting and providing natural resources**
- 3 **Constructing**
- 4 **Engineering**
- 5 **Manufacturing**
- 6 **Transporting**
- 7 **Providing goods and services**
- 8 **Providing health, social and protective services**
- 9 **Providing business services**
- 10 **Communicating**
- 11 **Developing and extending knowledge and skill**

The qualifications within each framework area are listed alphabetically by title and by level.

The following information is provided:

- i) For each NVQ: the awarding body, the QCA reference ('Q number'), the effective date and the expiry date are listed. Those in bold type show current NVQs. Light type indicates expired NVQs (as at 30 September 1999).
- ii) The total number of certificates awarded for each 'NVQ in the framework' is shown. An NVQ for this purpose is defined as a unique combination of NVQ title and level in a framework area. Where more than one awarding body awards an NVQ with the same title and level, the total for all those awarding bodies is shown.

A summary of the total number of certificates awarded, analysed by framework area and level, is provided at the end of the listing.

## Guide to NVQ terms

### AWARDING BODY

A code for each awarding body offering each NVQ is shown within the listing. A key showing the names of the awarding bodies is provided at the end of the bulletin. Where a code comprises the letter J followed by three digits (eg J625), this represents a joint awarding body, where two or more organisations work in partnership in awarding the qualification.

### REFERENCE CODE

This is the 'Q number', allocated by QCA to an NVQ when it is accredited. It provides a unique and unchanging reference.

### EFFECTIVE

The date from which the NVQ may be awarded.

### EXPIRY

The date on which accreditation expires. Once this date has passed, no new candidates may be registered for this NVQ. Existing candidates may continue to work towards the expired NVQ for a given period (usually one year after expiry for level 1 NVQs, two years after expiry for level 2 NVQs and three years after expiry for NVQs at levels 3, 4 and 5).

### RE-ACCREDITATION

As the accreditation period for an NVQ approaches the expiry date, an awarding body generally applies for re-accreditation, to ensure that there is no gap in provision. A submission for re-accreditation generally follows a review of the qualifications in question and usually results in revisions to the existing standards of competence (units) to ensure the qualification is kept up to date to meet current workplace

demands, and to ensure that any areas for improvement highlighted through previous practice are incorporated.

A re-accreditation results in a new accreditation agreement with the awarding body, and a new QCA reference code allocated to the new NVQ. In some cases, the title of a re-accredited NVQ is the same as that of the NVQ it is intended to replace, but in others it differs. Also, old NVQs may not be directly replaced by new NVQs on a one for one basis. For example, the three original NVQs in Business Administration at level 2 (Administrative, Financial and Secretarial) were replaced by a single comprehensive level 2 in Administration.

### STRUCTURE OF NVQs AND THEIR COMPONENT UNITS

Information on all NVQs, including full details of their units of competence, is contained in the National Database of Vocational Qualifications. *For further information, see page 3 of this Supplement.*

## NVQ take-up: factors to consider

When considering the take-up of NVQs, there are several factors that can affect the interpretation of the data. For example:

- These figures relate to 'whole' NVQs. They do not cover the large number of people currently working towards NVQs, many of whom will already have achieved a number of NVQ units.
- 'NVQs should represent coherent targets for particular employment progression and development routes. For some purposes

achieving individual NVQ units will meet the needs of individuals and organisations best, and this form of progression allows immense flexibility.'

*(NVQ Criteria and Guidance, January 1995)*

- There is a lag between an NVQ's accreditation and the issue of certificates. When an NVQ is accredited it is a new qualification, and there will be a period during which the awarding body will establish assessment arrangements and approve assessment centres, training providers will design and introduce learning programmes and potential candidates will undertake training. There will therefore be a delay between accreditation and the issue of certificates to successful candidates. The 'age' of an NVQ will therefore affect its take-up.
- There is no set time limit for achievement of NVQs, which means that candidates can take a flexible approach. For NVQs at higher levels, it can take several years for a candidate to gain an NVQ, depending on their personal circumstances.

## Further information

We have aimed to provide comprehensive information on the number of NVQ certificates awarded, and hope that the figures provided within this bulletin will meet the needs of a wide range of people interested in NVQ take-up.

Anyone requiring further statistical information should make a written request to the Statistics and Information Management Team, QCA, 29 Bolton Street, London W1Y 7PD. As QCA is aiming to develop its statistical capacity and to build up a picture of the needs of enquirers, we ask that each written request includes a description of the reasons for the statistics sought and how they will be used.

## The National Database of Vocational Qualifications

The National Database of Vocational Qualifications contains comprehensive information on all NVQs and GNVQs, including the units that make up each NVQ and GNVQ, their elements, range statements and performance criteria. It also contains information on other vocational qualifications. This information is updated at regular intervals. The National Database of Vocational Qualifications is available on subscription from QCA.
